Dear Director,

We have a invested interest in the Consumer Goods (Quad Bikes) Safety Standard 2019, in that we are importing the e-spider from swincar of France.

Swincar has been operating since 2000. The e-spider is enhanced safer than quad bikes.

There are many youtube video's demonstrating the e-spider,

**2. Provide your views on the exposure draft 'Consumer Goods (Quad Bikes) Safety Standard 2019' in your submission below.**

The paper has covered all aspects of quad bike safety, the 'tilt table' testing and the affixing the appropriate tags to the quad bikes, is a big step for the prevention of 'roll overs'.

Australia must have this paper legislated to keep up with the rest of the world in quad bike safety.

Removable ignition keys for adult size quad bikes.

Finally, there should be no change to the 'exposure draft'
